FIRST / washbasins

A complete, contemporary bathroom concept embracing washbasins, handbasins and bathtubs. Their flowing, organic, sculptural shapes lend every bathroom a contemporary but, above all, natural, warm appearance. First is very comprehensive – in terms of sizes, materials, and their combination. With First, larger bathrooms acquire a unique allure, and even the smallest bathroom or lavatory becomes very special.

HAMMOCK / washbasin & furniture

You've probably figured out where the inspiration of this series came from. The Hammock series is minimalist and edgy on the outside, smooth and fluid on the inside. A distinct contrast - that is the Hammock series all the way. With Hammock, you no longer have to choose between geometric and organic. Hammock is a complete, contemporary bathroom concept embracing washbasins, handbasins, bathtubs and toilets. Pay extra attention to the elegant drain with waterstop. There's no such thing as detail.

HANDBASINS

Vale
(28x19x7 cm)
matt black ceramics
CL/03.30160

VALE / handbasins

Like a waterfall, water flows from your tap down through the vale. Minimalist and rectangular. Yet soft and curved. Vale is a striking combination of two extremes. The straight lines on the outside of the ceramic handbasin include a smooth washbasin with an almost invisible, integrated drain.

Minimalistic
eye-catcher.

Vale

six trendy colours.

HAMMOCK / handbasins

Minimalist and edgy on the outside, smooth and fluid on the inside. A distinct contrast - that is the Hammock series all the way, where design, functionality, and ergonomics come together. From handbasin to complete bathroom set. Hammock is the perfect fit.

The two-person bathtubs are also worth taking a look at. They are freestanding, extraordinarily spacious, and as balanced as a sculpture. With Hammock, you no longer have to choose between geometric and organic. Keep your eyes open and discover the other members.

NEW FLUSH / handbasins

Twenty years ago, the first Flush. The success of this series proves that a balanced design provides timeless functionality and appearance. Compact balanced proportions, the pursuit of timeless simplicity, for the first time the oval plug, a design element, so recognizably Clou. This success story is extended with a second chapter by New Flush. With New Flush we celebrate this wonderful birthday. The same proven proportions with even greater attention to detail. Probably the most striking difference between Flush and New Flush is its wall thickness. Wafer-thin they are. Designed with utmost precision. Which one do you choose?

FLUSH / ecorazzo

Ecorazzo is a recycled mono-polymer plastic typology, made from shredded waste material. The material is usually made with industrial waste material but also with collected material from any other field including household-waste. It is a recycled, recyclable, circular, sustainable plastic material that melts at minimum temperatures so to have the minimum ecological impact also during its transformation. It has been collected, separated, chipped into pieces and re-transformed into a unique product, what others throw away.

HAMMOCK / rimless toilets

Rimless toilets have become the new standard. The idea of rimless, however, is often limited to a marketing concept. The design is commonly affected by the need for functionality. The Hammock toilet, however, made rimless a functional reality. Truly rimless, truly functional and truly well-designed. We are very proud to present this toilet.

BATHTUBS

reddot award 2016
best of the best

HAMMOCK / bathtubs

This two-person bathtub impresses with a strong character and a clear design of purist appearance. Overly well balanced and generously proportioned, it unfolds a high sensuous appeal particularly when freestanding. The soft surfaces and the distinctive design highlight of the matched mixer tap appeal to the emotions of users. It is ideal for adults who rejoice in a perfect space to relax, but also for playing children.

TAPS, DRAINS & SIPHONS

reddot award 2016
best of the best

KALDUR / freestanding bathtub mixer

The elegant Kaldur mixer tap stands out thanks to its gently curved form, symbiotically complementing the bathtub itself. Kaldur is made from polished chrome and features a coloured showerhead with soft-touch finish that attracts the eye, rests well in the hand and is particularly pleasing to the touch. The mixer tap thus emerges almost like a freestanding high-rise next to the bath. Clou's entry has elevated it to one of the best brands in the design industry this year.

MIRRORS

More than
mere reflection.

ACCESSORIES

CLIFF / (shower) shelves

Inspired by the natural form of stones. Organic forms instead of the usual straight, angular shelves. Forms calling for a touch, in contrast with the straight lines and sleek designs in the bathroom or shower. The variety and natural movement in their shape makes Cliff shelves real eye-catchers in the bathroom. Made from ceramics, making them easy to clean and well appropriate for wet spaces.

FOLD / accessories

Fold is Clou's newest and sleekest accessory series. Proportional shapes and straight surfaces form the basis of the 'folded' designs. With ten different products, each available in four different colours, the series comprises no less than forty different products. It is therefore also Clou's largest accessory series.
